## SurfaceTechnology – Anything but superficial.

At the Tüyap Fair Convention and Congress Center in Istanbul, you'll be able to discover everything there is to know about SurfaceTechnology. Learn more about the latest units for surface cleaning and pretreatment, along with electroplating technology, lacquering systems and other important topics. Get into discussions about the newest test methods and quality assurance options with leading experts from a broad range of industries. Seize the opportunity! SurfaceTechnology is a key technology in industrial production. It is mandatory for efficient production processes and purer products. That is why the presence of SurfaceTechnology at WIN EURASIA creates significant added value for all exhibitors and visitors.

You will also have the possibility to exhibit at the parts2clean pavilion which is located within SurfaceTechnology EURASIA and focuses exclusively on the cleaning and pre-treatment of industrial parts, an important preceding process in modern-day manufacturing.

## SurfaceTechnology Area 1-5 April 2019, Hannover

**A real “must”: the world’s premier industrial technology show**

Welcome to the rallying point for the prime movers in industrial technology. More than 6,000 exhibitors come to HANNOVER MESSE to present their product innovations. Every year the world’s largest exhibition centre provides unrivalled insights into the future. More than 200,000 visitors regularly attend HANNOVER MESSE in order to see which technologies will put them ahead of the competition. As part of Industrial Supply, the leading trade fair for innovative subcontracting solutions and lightweight construction, the **SurfaceTechnology Area** focuses attention on technical solutions for every area of surface treatment and finishing.

# USA

10 - 15 Sep 2018,  
Chicago

**International trade show for surface technology at HANNOVER MESSE USA co-located with IMTS, the largest manufacturing trade show in North America.**

SurfaceTechnology USA plays a vital role in its industrial sector. By providing a unique standalone platform, it expands recognition in the North American manufacturing marketplace. Be part of the market and introduce new innovative technology to exactly the right target audience. Chicago is a national center for automotive manufacturing specializing in motor vehicle parts production, while maintaining a strong presence in many other manufacturing subsectors. IMTS as a whole attracted more than 115,000 visitors. SurfaceTechnology USA covers about 400 sqm of space with 36 exhibitors. With top exhibiting companies, the Chicago-based SurfaceTechnology USA show is perfect for initiating new business. **The premier of HANNOVER MESSE USA with its 4 leading trade fairs and 3 special display areas is an additional highlight for participating enterprises.**
